

Card Post Art is a meeting of art, solidarity and production « with a conscience » in a fair and environmentally sustainable way. This set of five A5 cards is accompanied by a series of five exclusive art photographs signed by the artist. The role of these cards is to promote information about a cause through the artist's eye and so to bring together people and their talents, aspirations and survival, their conscience and will contribute to the greater welfare of the planet. Card Post Art is a gift to offer throughout year. Each photograph is removable and its size enables easy dissemination and display.

Sterenn Denys (Brussels, 1975) is a contemporary Belgian artist photographer who studied at Ruskin College, Cambridge. Sterenn has made culture one of her favourite themes. Feeling Art, like love, is the most beautiful human creation through history, she tells stories where people and culture meet. Her niche : exploring space as a cultural perception. She produces spontaneous and unique images which are poetic windows of the world. Her art drawn from life across cultures and in the context of the arts has been exhibited in New York and across Europe.
